

## CLUB BULLETIN 2019 - 20

The seasonal fees for the current season 2019 - 20 are published in the bulletin. The table has been aimed to be made as clear as possible. In over 12-year-olds' (prev. C Juniors and above) teams, the players also have the opportunity to choose less weekly training sessions during the season, the seasonal fees for all these training groups can be found in the table.

No major changes are being introduced for the upcoming season's seasonal fees, although the coach and facility costs have increased over the past few years. We have successfully been able to keep the seasonal fees from increasing due to an increasing number of players, in addition to which we have been able to develop our cooperation agreements with a few of our partners. The seasonal fee changes concern the U15 - U 19 teams, these teams have increased competition fees (U17 and U15 new series), in addition to which the activities of age group-specific hobby teams are very similar, which is why the seasonal fees of hobby teams have been standardised. In case of Unified teams, public funding has decreased significantly, so we had to increase the seasonal fees. The seasonal fees of the eldest micro juniors (2010 team during the season 2019 -20) has also had to be increased, because they have more training sessions than the younger micros. The seasonal fees and training groups have been calculated using current player numbers, so the club has the right to change the training groups if any major changes occur in the number of players.

As during previous seasons, the summer training fees are included in the minis' seasonal fees. In the future, summer training will also be included in the seasonal fees of other training groups. It shall be invoiced separately only from the U13 – U14 teams and the U16 - U19 competition teams. If a player does not participate in summer training, the summer training fee does not need to be paid. **Please inform Nea if you shall not participate in summer training, [nea.myllyla@hnmky.fi](mailto:nea.myllyla@hnmky.fi).** Players in junior national team activities are also excluded from the summer training fee, because the national team activities take place at the same time.

We hope all members of HNMKY have a sweaty summer 2019 and a great basketball season 2019-20!
